The media was howling full force over Michael Jackson on June 13, so the results of the new Gallup poll on Iraq registered barely a ripple, and that mostly on the back pages of a few newspapers in the provinces. Gallup asked: "Which comes closest to your view about what the U.S. should now do about the number of U.S. troops in Iraq: the U.S. should send more troops to Iraq, the U.S. should keep the number of troops as it is now, the U.S. should withdraw some troops from Iraq, (or) the U.S. should withdraw all of its troops from Iraq"? The answer:

Send more: 10%;
Keep the same number: 26%;
Withdraw some: 31%;
Withdraw all: 28%.

– Making Sense of the Iraq War Polls by JOHN WALSH, June 15 2005

1. Determine how many pie ‘pieces’ you will be using here ____________________________

2. Verify that the percentages add up to 100% ____________________________

3. Fill in the pie chart below. Be sure to label

4. Verify the following determinations made in the same article as either:
   True / False / Not Enough Information

   a. “Bottom line is that 59%, or 6 in 10, Americans want troop withdrawal from Iraq - starting now.” ____________________________

   b. “A prodigious majority has elected the withdrawal option” ____________________________

   c. “The least popular option in this poll, viz, sending more troops (10%)… is the stance of the Democratic leadership!” ____________________________
