ENGL 113
- direct you to take a course
At the first time I came to University of Nevada Las Vegas, I had not done with anything I did not have any schedule and I did not even know the direction of the school because I missed the orientation. But the English Language center helped me a lot. They found me the courses that fit on my level and gave me good advice when I took the courses. I really appreciate their helping.
- The international students have been contributed on University of Nevada Las Vegas. since the university was established. The international students are obviously important to globalize the university and make it progress to the world.
If there are no international students, the school might be minor to compare with other schools because it cannot absorb the global mind. It is important to keep the international students for the future development of University of Nevada Las Vegas, instead of pursuing present profit.
