ABS 443/643 WEEKLY SUPPLEMENTAL READINGS

This is an overview of the supplemental reading assignment. See syllabus for due dates. This is an individual assignment.

Statement from the syllabus:

1. A minimum of one additional reading source per week on the topic of the week -- preferably case study type information that provides you with practice knowledge about architectural lighting. Individual assignment. The reading should expand your knowledge of the topic of the week and provide information (verbal, visual) that you can share in class during open discussion. See schedule for due dates.

2. Students will sign up for open discussion dates during the second class session! The purpose of open discussion is to allow two-three students per week to lead a 20-minute discussion session on outside readings. Leaders for the day should discuss their readings and seek input from other students on what they have read. There are no other guidelines for this informal session. Counts 20% of your final grade (#’s 1&2 above).

Guidelines for preparing the reading assignment:

1. Document the reading source using a standard bibliographic citation style (APA, MLA, etc.). Example:

2. Prepare a short one-two paragraph summary of the key points of the article, chapter, web, or other source. Alternatively, list key bullet points for the key points.

3. Turn in hard copies of each key reading as a packet of readings as defined on the schedule; email your word file to MDK so he can compile a class bibliography to share with all at end of semester. (two times during the semester). No need to turn in the actual articles unless I happen to ask about it!

4. Other questions? Make sure you ask!
