The following terms are germane to the lecture material covered after Exam #3

**Energy and Natural Resources**
- reserve
- resource
- renewable resource
- nonrenewable resource
- fossil fuel
- coal
- oil
- natural gas
- tar sands
- oil shale
- oil trap
- structural trap
- stratigraphic trap
- geothermal energy
- hydroelectric energy
- nuclear energy
- fuel rod
- uranium
- plutonium
- solar energy
- solar collector
- photovoltaic
Energy and Natural Resources (cont.)
wind energy
biomass
hydrogen energy
strip mining
underground mining
hydrothermal deposits
magmatic segregation
vein deposits
weathering deposits
precipitation deposits
placer deposits
industrial minerals
