GEY 701  Spring 2007  Assignment #3  Due: 10/1/07

You are to provide the following:

1) A revision of assignment 2 that reflects your current thinking.

2) An annotated bibliography focused on your research topic. Citations should be numbered, in alphabetical order, and presented in GSA format. Each bibliographic citation should be followed by a concise (1-3 sentence) explanation of how the cited material is relevant to your research area. Given the variability in research topics, no set number of citations is required; however, 10-20 seems like a good starting point, with no more than one in which your advisor is an author.

3) In less than one page, describe how you searched for background information.

This assignment is to be turned in at the beginning of class, and you should be prepared to discuss your topic with your classmates and myself.
