Attend the UNLV Geoscience seminar on either 9/26/07 or 10/3/07 (see attached) and evaluate the multi-media graphics used by the speaker. Basically, I want you to send me a memorandum (in proper memorandum format) that tells me what you liked and disliked about the use of graphics by the speaker. I'm not interested in whether or not you liked the talk, only the effectiveness of the multi-media portion of the speaker's presentation.

This assignment is to be turned in at the beginning of class on 10/8/07, and you should be prepared to discuss your topic with your classmates and myself. If you are unable to attend either presentation, it is your responsibility to notify me before the end of class on 9/26/07.
