HONORS 182H: Honors Calculus II (Section 1001)  
Spring 2014 Semester 
10:00 – 11:45 a.m. Tuesday & Thursday CBC C316

Instructor: Dr. Robinette  
Office: CDC 920 (Central Desert Complex building 9, room 920)  
Office Hours: 10:30 – 1:00 Monday; noon – 1:00 Tuesday & Thursday  
Office Phone: 895–0363  
E-mail Address: robinet3@unlv.nevada.edu

Prerequisites: Good standing in the Honors College and HON 181H (grade of C or better)  
Text: Essential Calculus: Early Transcendentals, Second edition, by J. Stewart (Chapters 6 – 9)

Learning Outcomes:  
1. Solve integration problems using substitution, integration by parts, trigonometric integration, trigonometric substitution, and partial fraction decomposition;  
2. Approximate definite integrals by right, left, midpoint, trapezoid and Simpson’s rules;  
3. Apply integration to calculate the area between curves and volumes of solids of revolution;  
4. Comprehend the notions of sequence and series;  
5. Recognize and identify geometric series and p-series;  
6. Determine whether a series converges or diverges by using appropriate test including integral test, comparison test, limit comparison test, ratio test, root test, and alternating series test;  
7. Determine whether a series converges absolutely, converges conditionally, or diverges;  
8. Represent a function as power series and determine its radius and interval of convergence;  
9. Understand and graph parametric curves in the Cartesian coordinate system and polar graphs in the polar coordinate system;  
10. Calculate the area of a region bounded by polar graphs.

Notes: Note sheets are available from my website http://faculty.unlv.edu/robinette/robinette.html. 
Print your own copy before you come to class. We fill these out together in class. If you miss class, then you are expected to get the notes from one of your classmates. I will not provide notes for days you are absent.

Calculators: Graphing calculators are not allowed during the in-class exams or the final exam. You are permitted; however, to use a scientific calculator.

Homework: The problems that you should work after each lecture are on the assignment list. These are from your textbook and should be completed in a manner that practices the steps and techniques we use in the notes for class.

WebAssign: You are encouraged to use webassign. When you set up your webassign account, make sure that you use your rebelmail e-mail address and our class key is unlv 5935 9273. There are 22 webassign homework assignments and three webassign tests. Each of the three webassign tests may (if you earn the privilege, see homework assignments below) contribute points toward the corresponding in-class exam. All webassign assignments and tests must be completed during the scheduled webassign timeframe. Failure to complete a webassign task during the scheduled webassign timeframe will result in a score of zero for that task. There are no exceptions.

Homework Assignments: To practice the calculus skills and techniques you will be learning and to get feedback and help, take the homework assignments on webassign. (You are allowed five submissions for each webassign homework assignment.) Satisfactory completion (score greater than 14 (out of 20)) of all webassign homework assignments for a section of material to be covered on an in-class exam grants you eligibility to attempt the webassign test for that section of material.

Tests: To show that you have mastered the calculus skills and techniques of a given section of material, take the corresponding test on webassign. (You are allowed two submissions for each test.) If you have satisfactorily completed (score greater than 14 on each) all the webassign homework assignments for that section of material, then your webassign test points (maximum of 10) will be added to your in-class exam score. The due dates for these tests are February 21, April 4, and April 30.

Exams: There will be three in-class exams, worth 100 points each. The dates of these exams are February 25, April 8, and May 1. If you fail to take an exam during the scheduled class time for a justified and excusable reason (with verification) (see UNLV policy on Religious Holidays and Missed Classes), then you will have an opportunity to take a make-up exam during final exam week on Friday, May 16, 2014, from 7:00 – 8:00 a.m..

Final Exam: The final exam, worth 100 points, is an in-class comprehensive exam and will be given on Tuesday, May 13, 2014 from 10:10 a.m. – 12:10 p.m. in our classroom CBC C316.

Grading: There are a total of 400 points available in this course coming from your final exam score and your three in-class exams. Final grades for the course are based on the following percentage scale:

A: [90, 100]  C: [66, 72]  
B+: [84, 90]  D+: [60, 66]  
B: [78, 84]  D: [50, 60]  
C+: [72, 78]  F: [0, 50]

Grades of A–, B–, C–, and D– may be given in borderline cases, where class attendance and class participation will be determining factors.

Attendance: You are expected to attend class regularly. You are responsible for all the material presented and all announcements made on days you are absent.
Tutoring through the Department of Mathematical Sciences is available for this course. The Tutor Clinic is in CDC-7 and is available as a walk in tutoring clinic. For more information including location and hours call (702) 895-3567 or email math@unlv.edu.

Additional Miscellaneous Policies

Academic Misconduct – Academic integrity is a legitimate concern for every member of the campus community; all share in upholding the fundamental values of honesty, trust, respect, fairness, responsibility and professionalism. By choosing to join the UNLV community, students accept the expectations of the Academic Misconduct Policy and are encouraged when faced with choices to always take the ethical path. Students enrolling in UNLV assume the obligation to conduct themselves in a manner compatible with UNLV’s function as an educational institution.

An example of academic misconduct is plagiarism. Plagiarism is using the words or ideas of another, from the Internet or any source, without proper citation of the sources. See the Student Academic Misconduct Policy (approved December 9, 2005) located at: http://studentconduct.unlv.edu/misconduct/policy.html.

Copyright – The University requires all members of the University Community to familiarize themselves and to follow copyright and fair use requirements. You are individually and solely responsible for violations of copyright and fair use laws. The university will neither protect nor defend you nor assume any responsibility for employee or student violations of fair use laws. Violations of copyright laws could subject you to federal and state civil penalties and criminal liability, as well as disciplinary action under University policies. Additional information can be found at: http://www.unlv.edu/committees/copyright/.

Disability Resource Center (DRC) – The Disability Resource Center (DRC) determines accommodations that are “reasonable” in promoting the equal access of a student reporting a disability to the general UNLV learning experience. In so doing, the DRC also balances instructor and departmental interests in maintaining curricular standards so as to best achieve a fair evaluation standard amongst students being assisted. In order for the DRC to be effective it must be considered in the dialog between the faculty and the student who is requesting accommodations. For this reason faculty should only provide students course adjustment after having received this “Academic Accommodation Plan.” If faculty members have any questions regarding the DRC, they should call a DRC counselor.

UNLV complies with the provisions set forth in Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. The DRC is located in the Student Services Complex (SSC-A), Room 143, phone (702) 895-0866, fax (702) 895-0651. For additional information, please visit: http://drc.unlv.edu/.

Religious Holidays Policy -- Any student missing class quizzes, examinations, or any other class or lab work because of observance of religious holidays shall be given an opportunity during that semester to make up missed work. The make-up will apply to the religious holiday absence only. It shall be the responsibility of the student to notify the instructor no later than the last day of late registration of his or her intention to participate in religious holidays which do not fall on state holidays or periods of class recess. This policy shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship on the instructor or the university which could have been avoided. For additional information, please visit: http://drc.unlv.edu/.

Tutoring -- The Academic Success Center (ASC) provides tutoring and academic assistance for all UNLV students taking UNLV courses. Students are encouraged to stop by the ASC to learn more about subjects offered, tutoring times and other academic resources. The ASC is located across from the Student Services Complex, #22 on the current UNLV map. Students may learn more about tutoring services by calling (702) 895-3177 or visiting the tutoring web site at: http://academicsuccess.unlv.edu/tutoring/.

UNLV Writing Center -- One-on-one or small group assistance with writing is available free of charge to UNLV students at the Writing Center, located in CDC-3-301. Although walk-in consultations are sometimes available, students with appointments will receive priority assistance. Appointments may be made in person or by calling 895-3908. The student’s Rebel ID Card, a copy of the assignment (if possible), and two copies of any writing to be reviewed are requested for the consultation. More information can be found at: http://writingcenter.unlv.edu/.

Rebelmail – By policy, faculty and staff should e-mail students’ Rebelmail accounts only. Rebelmail is UNLV’s Official e-mail system for students. It is one of the primary ways students receive official university communication such as information about deadlines, major campus events, and announcements. All UNLV students receive a Rebelmail account after they have been admitted to the university. Students’ e-mail prefixes are listed on class rosters. The suffix is always @unlv.nevada.edu.

Missed Class(es)/Student – As a general rule, a student missing a class or laboratory assignment because of observance of a religious holiday shall have the opportunity to make up missed work. Students must notify the instructor of anticipated absences no later than the first two weeks of classes to be assured of this opportunity.

NOTE: Students who represent UNLV at any official extracurricular activity shall also have the opportunity to make up assignments, but the student must provide official written notification to the instructor no less than one week prior to the missed class(es).

This policy shall not apply in the event that completing the assignment or administering the examination at an alternate time would impose an undue hardship on the instructor or the university that could reasonably have been avoided. There should be a good faith effort by both faculty and student to come to a reasonable resolution. When disagreements regarding this policy do arise, they can be appealed to the department chair/unit director, college/school dean, and/or the Faculty Senate Academic Standards Committee.

For purposes of definition, extracurricular activities may include, but are not limited to; band, drama, intercollegiate athletics, recruitment, and any other activity sanctioned by a college/school dean, and/or the Executive Vice President and Provost.
