Don't gamble with your life or anyone else's!

The well being of pedestrians and bicyclists depends on drivers and pedestrians.

Pedestrians: Never assume that a green light, walk signal, or crosswalk guarantees your safety. Some drivers disregard traffic laws so you must be aware of vehicles even when you have the right of way.

Motorists: Obey traffic laws and signals. Remember that pedestrians and cyclists have a right to use the roadways and watch for them.
